CONGREGATIONAL CARE UPDATE - MAY 17 - 23, 2022

Mike Dalman

Mike is having hip replacement surgery on Tues. May 24. Please pray that the surgery goes smoothly and for Mike's healing & recovery to follow.

Gloria Pelon

Gloria is recovering from surgery on her right hand on Wed, May 4. This is a challenging 6-week recovery, praying for healing and steady improvement.

Herk Vollink

Herk is still having pain and his recent scans revealed no change from the chemo treatments for appendix cancer. This is not at all the news they were hoping for. They will discern with the doctor on next steps.

Ruthann Voss

Ruthann's chemo treatment on Monday, May 16 went well, so far without complication. They are grateful for the generous gifts of meals but they would prefer not to receive any food at this time because of specific dietary needs.

Erk South

Erk is scheduled for surgery in his left ear, to remove scar tissue at Holland Hospital on Wed, May 25, 2022. Please pray that the surgery is successful in improving his hearing and to get ready for a possible cochlear implant.

Robert Morgan

Robert had a brief stay at RestHaven to recover from cellulitis. He is now home and will have to do therapy and follow up appointments. His sister Barbara passed away on Wed. May 18. They are relieved Robert is home but grieving this loss.

Chuck Berghorst

Chuck continues to have intense nerve pain on the tops of his feet, all day and into the night. They are grateful he is able to sleep. Praying for something that will provide relief from this pain and wisdom in next steps.

John Klokkert

John is continuing with hormone therapy to treat cancer isolated to his lymph nodes. He received great news from his bloodwork! Treatment is working and his levels are right where they want them!!

Tim Klunder

Tim's brain MRI on April 18 found no new spots and the tumors shrunk a bit more. Very encouraging. Tim's PET scan on May 4 did show a spot in the pelvis area above the bladder and his right adrenal gland has grown. Tim's immunotherapy is going well. He will have radiation on the adrenal gland and stay the course with the treatment plan.

Amy Ritsema

Amy's last chemo treatment is May 12. Next steps are a CT scan in the next 3 weeks followed by meeting with her Dr. about the chemo pill I will be taking for the next couple of years. Prayers appreciated for: the CT scan to show no cancer growth since surgery, to calm any fears and anxiety around the CT scan and what they will or won't find, that the doctors can determine with confidence the next phase of my ongoing treatment.

"Rejoice that I have made it through these last 9 months of active treatment and surgery and can hopefully start building up my strength and stamina."

Beth VanDyken

Beth continues with immunotherapy every 3 weeks for the next year. She is done with radiation, praying the side effects will resolve. She has an upper GI scope on May 19 that hopefully provide relief and answers for some stomach issues that have been unresolved.

Doug Danckaert

Doug continues with treatment for melanoma. He switched medication last week Monday and so far, he is just dealing with fatigue. He had a PET scan and MRI this week with clear results!!! Good news!

Sam Mulder

Sam's scan results show that his lungs are stable. He has multiple lesions in the lungs that haven't changed. This is great news. Unfortunately, the biggest tumor in the liver has grown as well as multiple lymph nodes that "lit up" vs the 1 last time. The Dr. is suggesting Sam participate in a trial. so they will be meeting with doctors and researching the trial. Sam will be the one making the decision with his goal in mind, to get through college as normal as possible. Please pray for peace and a clear path to the right decision.
