## CONGREGATIONAL CARE UPDATE - JUNE 28 - JULY 4, 2022

**Travis Vredeveld**

Travis is recovering from his 2nd hip surgery on June 28. He is home and surgery went well. Please pray for his healing and therapy to follow.

**Barb Klokkert**

Barb is recovering from emergency surgery related to a hernia and removal of her appendix. Praying for her healing and recovery.

**Lavonne Langeland**

Lavonne has been moved to Mary Free Bed for further therapy following treatment at Butterworth for a brain bleed.

**Marie Spoelman**

Marie has been moved to RestHaven for care following a hospital stay for fluid on her lungs and arrhythmia.

**Herk Vollink**

Since Herk's scans revealed no change from the chemo treatments for appendix cancer, they have made the difficult decision to not continue treatments.

**Robert Morgan**

Robert continues to recover. His echocardiogram found no heart failure. Praise! He has started physical therapy and is slowly getting a little stronger everyday.

**Tim Klunder**

Tim finished radiation with no side effects. In about 6 weeks, he'll have scans to see how the radiation helped. Praying his next brain scan on July 17 shows the spots have not grown and no new growth. Tim has resumed his targeted drug therapy (pills) daily and his immunotherapy every 2 weeks. He is feeling great and feel blessed by God on how well he has been handling all the treatments.

**Ruthann Voss**

Ruthann continues with her chemo treatments with the next one on Monday, July 11. They would prefer to not receive meals at this time because of specific dietary needs.

**Beth VanDyken**

Beth continues with immunotherapy every 3 weeks for the next year. She is done with radiation, praying the side effects will resolve. Her upper GI scope did not provide answers for some stomach issues that have been unresolved. Praying answers come soon.

**Doug Danckaert**

Doug continues with treatment for melanoma. His blood work has shown some issues with the medication. He will see his doctor on Friday to discuss what all this means. They are very grateful that he's been able to work.

**Sam Mulder**

Sam's scan results show multiple lesions in the lungs haven't changed. This is great news. Unfortunately, the biggest tumor in the liver has grown as well as multiple lymph nodes that "lit up". They will meet again with Sam's oncologist to determine when his next round of scans will be and then review those results with the trial doctor & oncologist to see where the trial is & how Sam's body is doing. Please pray for them in the waiting.

**Amy Ritsema**

Next steps are a CT scan followed by meeting with her Dr. about the chemo pill she will be taking for the next couple of years. Prayers appreciated for: the CT scan to show no cancer growth since surgery, to calm any fears & anxiety, what they will or won't find, that the doctors can determine with confidence the next phase of ongoing treatment.

**Chuck Berghorst**

Chuck continues to have intense nerve pain on the tops of his feet, all day and into the night. They are grateful he is able to sleep. Praying for something that will provide relief from this pain and wisdom in next steps.

**John Klokkert**

John received great news that his cancer is 'asleep'. The prayer is that it stays that way. Prayers appreciated as he will have another surgery soon.
