CONGREGATIONAL CARE UPDATE - OCT. 18 - 24, 2022

Doug Danckaert

Doug's MRI showed a melanoma spot in his brain. He will have a targeted radiation treatment on October 26. Though not the news they were hoping for, they are thankful that the PET scan of the rest of his body didn't show anything and that the doctor is confident in the treatment that is being recommended.

The Danckaerts want to thank everyone for their prayers and concern throughout the last year. They ask for continued prayers for Doug and his ever-expanding care team.

Herk Volland

Continued prayers for Herk & Lin as they continue the journey with Herk's appendix cancer. Praying for their day to day needs.

Amy Ritsema

Amy continues with the chemo pill, hopefully without complication. Praying that she continues to feel good, gain strength and stamina, and for her family as they continue to walk with her through this unpredictable journey.

Ruthann Voss

Ruthann continues to recover from surgery that was meant to reverse the ileostomy. She is recovering at Butterworth and will be moved to Mary Free Bed to continue her recovery and to gain strength. Praying for healing and protection from infection.

Will Skaggs

Will (15 yr. old son of Brian & Julie Skaggs) continues the long journey of recovery following knee dislocation during football practice and torn ligaments. Prayers for his continued healing and return to full use!

Robert Morgan

Robert has been dealing with side effects from all the medication he is on. His blood sugar, blood pressure & potassium levels are affected. His doctor is making adjustments in hopes things will level out. He also has some sores on his feet that won't heal so he'll see a wound specialist. He is very fatigued but trying to maintain a good attitude. The cancer is still 'asleep' and for that they are grateful.

Chuck Berghorst

Chuck continues to have intense nerve pain on the tops of his feet, and it is worse than ever. He is on his 5th nerve pain prescription with no relief, and they've been to 4 different doctors/specialists with no answers on how to get Chuck relief. Your prayers for them are such a blessing.

Sam Mulder

Sam had scans on Oct.10th and the results show things are stable!!!! There was some growth in the largest liver tumor, but overall, it was a very minimal change compared to the last scan. Praise!! Sam will be presented to the tumor board on Oct. 14 for overall review and assessment and then another call with the Doctor to confirm the present path is the one to stay on. The Mulders are grateful for all the continued prayers!!

Arnie Disselkoen

Arnie has been moved to Freedom Inn following a brief hospital stay for treatment of a stroke. Please pray for Arnie & Norma during this time of adjustment.

Tim Klunder

Tim went for his Brain MRI on Oct 5th. The results show 3 of the 4 tumors have shrunk 1mm. The 4th one has not changed in size, and they didn't find any new tumors. God is good!! The Klunders thank you again for all the support you have given to their family.

JERRY DRIESEN

Celebrated his 81st birthday on Oct. 25th.

HERB & KAREN BOERSEN

Celebrating 60 years of marriage on Oct. 25th.

WORDS OF THANKS

"So grateful for the prayers from our Faith Church Family during my treatments! We appreciate all the gestures of support you've shown! I've completed my treatments and continue to feel good!"

Dave Kempema

"Thank you for remembering me and for all the well wishes that I received for my birthday!! I am blessed by the people of Faith Church!"

Elaine DePree

Wondering how you can get more involved? Check out the Hand2Hand Pantry door located off the Gathering area. Please take a tag or two and purchase new non-expired items. All you need to do is return them to the black bins on the shelves right outside of the H2H pantry. If you have further questions please feel free to reach out to Amy Kleinehksel - akleinheksel@faithrc.org.
